Invitation

The Center for Biotechnology (CeBiTec) of Bielefeld University cordially invites you to attend the 8th CeBiTec Symposium entitled "The Genomics Revolution and its Impact on Future Biotechnology". The conference which is jointly organized by CeBiTec and the GFT e. V. will be held at the Center for Interdisciplinary Research (ZiF) of Bielefeld University from October 28th to 30th, 2013. The conference will focus on pro- and eukaryotic genome research as well as metagenomics. Selected examples of each field will be presented. In particular, results will be shown obtained by employing ultrafast sequencing technologies. Novel technological developments in high-throughput sequencing will be presented and bioinformatics challenges will be discussed. The implications for genome-based Systems- and Synthetic Biology will be considered. The major topics to be addressed are:

- Microbial Genomics
- Plant and Animal Genomics
- Metagenomics
- Bioinformatics
- Ultrafast Sequencing Technologies
- Systems and Synthetic Biology
- iGEM competition

In addition to plenary lectures, poster presentations will take place throughout the meeting. I look forward to welcome you in Bielefeld!
