

# Mini Symposium

## *The Future of Omics Analysis in Life Sciences and Medicine*

An exclusive opportunity to learn from leading scientists in different fields about the latest developments of techniques and applications.

## Speakers

### **Dr. Bernd Timmermann**

Scientific Lead Genomics EMEA-LATAM,  
Roche Diagnostics

„The revolutionary significance of omics technologies in the future of medicine”

### **Prof. Dr. Klaus Dreisewerd**

Institute of Hygiene, Münster University

„MALDI-2 and t-MALDI-2 mass spectrometry imaging: Molecular insights into tissues, biofilms and cell cultures at the micrometer scale”

**27 June 2025**

14:00 – 16:00 p.m.

On-Site Seminar  
Building X, Room X-E0-001  
Bielefeld University

#### **Hosts:**

Jörn Kalinowski, Karsten Niehaus, Center for Biotechnology and Faculty of Biology  
Tobias Busche, Marcus Persicke, Core Facility Omics (in constr.) and Medical Faculty
